## 2. Background / Introduction

The financial position is reported against the 2019/20 baselines following approval of the 2019/20 IMTP by the EASC Joint Committee in January 2019. There are no corrective actions to report at this point.

The budget at this point does not include the APP Expansion Plan, unscheduled care allocation nor the National Pay Issues of pension rate increase and holiday pay on voluntary overtime.

Please note that as LHB's cover any EASC variances, any over/under spends are adjusted back out to LHB's. Therefore, although this document reports on the effective position to date, this value is actually reported through the LHB monthly positions, and the EASC position as reported to WG is a nil variance.

## 3. Governance & Contracting

All budgets have been updated to reflect the 2019/20 approved IMTP. The IMTP sets the baseline for all the 2019/20 contract values.

#### 3.1 EMS Contract

The current reported financial position of WAST is a break even at year end.

The WAST budget is currently reported as the total of the following service lines:

Service

The funding for Renal Transport has been separated from WAST and will be reported separately. Air Ambulance (EMRTS) has been transferred from WAST and now sits within EASC – EMRTS and will be paid directly to Swansea Bay UHB. The change in baseline this month is a result of funding for the Major Trauma Centre of £104k.

### **3.2 EMRTS**

There is a breakeven position reported against the EMRTS baseline funding of £3.893m.

## 3.3 Core running costs budget

Costs are reported against two separate lines to reflect the original investment by LHB's. Please note that these have not yet been amalgamated in risk-sharing lines due to the different purposes of the two sources of funding at this point.

The total funding for costs running through the WHSSC ledger is £2,181k. This is made up of £999k for the original QAIT element (an increase of £236k this month

for Mental Health Urgent Care Case Access Review), £600k included this month for Emergency Department Quality & Delivery Framework, £503k for EASC and £79k for EASC clinical leads and Committee Chair.

## 4. Summary of Key Movements and Issues

There are no movements to report in the planned position in month. The overall forecast remains at breakeven.

# 7. Income / Expenditure Assumptions

## 7.1 Income from LHB's

Income for Month 10 was mostly in line with expectations for the EASC element; future months will include a table by LHB.

# 8. Overview of Key Risks / Opportunities

There is an emerging opportunity from a potential non re-current under commitment against the 1% Healthier Wales funding owing to slippage. The impact of this is being quantified.

# 9. Public Sector Payment Compliance

The WHSSC/EASC payment compliance target is consolidated and reported through the Cwm Taf monitoring process.

# 10. Confirmation of position report by the MD and DOF:
